

## DESIGN NEW DECISION OPTIONS

possibilities + opportunities = alternatives

Unfold the complexity

Redefine the collective framework

### Create a map of interest

Integrate new interest into the description of situations  
Keep context description open to new appearances

### Update beliefs

Contrast positions with new concepts  
Facilitates the creation of new explanations

### Be aware of the reciprocal effects

Connect the impact of processes in people  
Weigh the implications on the group options

### Recognize moods

Describe the group's emotions in clear words  
Transform discouragement into new responses

### Extend the perspective further in time

Project the impact of trends of transformation  
Set a range of responses to deal with different bifurcations

### Check stereotyped behaviors

Avoids the compulsive repetition of old recipes  
Provides feedback about people interventions

*Opening  
a collective horizon*
